PROFESSIONAL SUMMARY

AI Systems Architect building machine learning–driven security automation. I ship detection systems, not slide decks — phishing classifiers (99.68% F1), anomaly detection engines, and AI workflow tooling, all live on GitHub. Eight years operating inside federally regulated, security-cleared environments (FAA, OSHA, IATA, CBP) at American Airlines give me operator-grade instincts for incident response, access control, and high-stakes compliance. CompTIA Security+ · B.S. Information Technology, Cybersecurity Concentration, SNHU (Summa Cum Laude, 3.96 GPA). OSCP candidate, target Q3 2026.

TECHNICAL SKILLS

Languages & ML: Python · SQL · MySQL · SQLite · scikit-learn · pandas · NumPy · TF-IDF · Random Forest · prompt engineering · LLM orchestration · Chain-of-Thought / ReAct

Security Operations: Threat detection · Incident response · Log analysis · Vulnerability assessment · Identity & Access Management (IAM) · SIEM · IDS/IPS · Endpoint security · RBAC · Zero Trust · MITRE ATT&CK · Database administration · ERD modeling

Tools, Cloud & Compliance: Wireshark · Nmap · Darktrace · YARA · CISA AIS · Cisco Packet Tracer · Active Directory · AWS (EC2, IAM) · Azure · Flask · React · NIST CSF · NIST SP 800-53 · CIS Controls · ISO 27001 · FISMA · GDPR · DevSecOps · OWASP Top 10

SELECTED PROJECTS — github.com/KM-it-ops

Phishing Email ML Classifier · Python · scikit-learn · Random Forest

- 99.68% F1 score on phishing detection (5-fold cross-validation) — engineered 207 features combining TF-IDF + custom regex pattern matching across header, URL, and body content; ships with runnable real-time classification demo.

→ github.com/KM-it-ops/phishing-email-classifier

Security Log Anomaly Detection System · Python · pandas · NumPy

- 100% detection rate across injected threat scenarios via hybrid rule-based + statistical engine flagging six SOC threat categories (brute force, port scans, off-hours access, unknown-IP activity, privilege escalation, Z-score volume spikes); alert output structured for SIEM ingestion and analyst triage.

→ github.com/KM-it-ops/security-log-anomaly-detection

StockPath Navigator — AI System · Python · React · Prompt Engineering

- AI system architecture (Python backend + React dashboard) deploying 17 production prompt-engineering techniques — Chain-of-Thought, ReAct, self-consistency, tree-of-thoughts — for multi-step reasoning and behavioral adaptation.

Incident Response Playbook Library · ISO/IEC 27035 + NIST SP 800-61 r2 (CSF 2.0)

- Two complete IR playbooks aligned to industry-standard frameworks — full lifecycle coverage (preparation, detection, containment, eradication, recovery, lessons-learned, evidence handling); cross-framework design for finance, healthcare, and federal contractors.

→ github.com/KM-it-ops/incident-response-playbooks

Cyber Defense Playbook · Threat Intel · YARA · CISA AIS · MITRE ATT&CK

- Threat-intelligence and defense-in-depth framework — CISA Automated Indicator Sharing integration, YARA rule authoring, TTP monitoring mapped to MITRE ATT&CK, layered controls across human-factor, data-protection, and EDR.

→ github.com/KM-it-ops/cyber-defense-playbook

PROFESSIONAL EXPERIENCE

Aviation Security Operations Crew Chief · American Airlines · Charlotte, NC · 2015 – 2023

- Held security clearance and CBP badge endorsement running daily security operations for international wide-body aircraft under FAA/OSHA/IATA/CBP compliance — same regulatory rigor that governs federal cyber work.
- Led incident response under multi-agency oversight — reduced critical-response cycle times 30% via revised escalation and communication procedures.
- Managed access controls and clearance verification for restricted-zone systems and personnel under CBP badge authority — authentication, exception handling, identity validation.
- Authored seven security training programs (threat awareness, compliance, operational protocols) — cut operational errors and security incidents 15%; zero compliance findings across 8-year tenure under continuous FAA/OSHA/IATA/CBP audits.

Courier & Logistics Specialist · USPS · Kannapolis, NC · 2024 – 2025

Delivery Associate · Fossa Logistics LLC (Amazon DSP) · Charlotte, NC · 2025 – Present

EDUCATION & CERTIFICATIONS

B.S. Information Technology — Cybersecurity Concentration · December 2025

Southern New Hampshire University · Summa Cum Laude · 3.96 GPA · Dean's List (8 terms) · Alpha Sigma Lambda Honor Society

Certifications

- CompTIA Security+ ce (2025)
- Security Clearance & CBP Badge Endorsement (2015–2023)
- OSCP — in progress, target Q3 2026
